Whispers from The Brighter World
A Fourth Revelation

Do not worry about all these things which you do not understand; the human being is greatly complex. Having the Master inside you is a state, being in the heart of Babuji is a grace, our cohabiting is another one and there is no contradiction in all that. Are there not 'many abodes in the house of my Father'? We work on different planes that intersect with each other since we are nonetheless in the same vibration.

"As human beings, you can have several activities and many contacts without your life being disorganised. It takes a given direction and you manage the situation. The more you advance, the more your horizon widens. It gives you access to different categories of actions. Your spiritual path is balanced and promising. You are advancing under our benevolent eye and your soul is blooming harmoniously. You need not worry, all is for the best."
