Whispers from The Brighter World

Tuesday, December 11, 2012 – 10:00 a.m.

Throughout the daily turmoil, your gaze is increasingly fixed on the centre point of the star, and your heart is soothed. This symbol will take its rightful place in the future; it was not given in vain. Our beloved son correctly values it, and it will gradually gain in importance. It will become the hallmark of our Sahaj Marg Mission whose attributes are many. These attributes will prevail more and more in people's hearts. It takes time for humans to adapt and to grasp the value of what is offered to them, which may even mean changing their habits. Nonetheless, we are moving towards unprecedented open mindedness; important vibratory changes will facilitate that development. Everything will fall into place in due time, even if it may shake up some humans a little. The history of the world is full of significant upheavals that resulted in important soul-searching. Humans have always had to adapt; how could it be otherwise? The evolution of humankind has gone through this before, and it is not finished. Far-reaching objectives are yet to be attained, and unprecedented transformations will occur in the future. They will make human beings perform very well and connect in a more sensitive manner with the divine energy, which will be crucial in their evolution.

It is time to put forward such arguments, as so many of our abhyasis have questions about the future of humanity. The anxiety in humans may lead them to reassess their way of life. Everything will happen in due time. May our brothers and

sisters focus on their practice and be fully committed – that is the main objective to be achieved.

Blessings to all.

Babuji
