Whispers from The Brighter World

Saturday, January 12, 2013 – 10:00 a.m.

This series of messages leaves its mark on people's minds; it is in line with current events. The whole of these writings – let us repeat it once again – is a valuable asset. They will be even more appreciated in the future when people's minds will focus more on spirituality. It will become more important; many factors will prompt humans to turn to values that are sound and necessary for a balanced life. Thus they will advance in knowledge – knowledge of the realities of life beyond purely materialistic principles.

An incarnation is short in the face of eternity; experience acquired from one incarnation to the next is a surety needed for the elevation of the being. Each of these experiences has its raison d'être; it takes time to raise the awareness of humans to a reality that is still beyond most of them. Wise are those who see beyond appearances; in their current lives, experiences have led them to a way of being and of comprehending the opportunity of the present incarnation. Realising this and trying to understand and go deeper into the divine laws testifies to an innate wisdom just waiting to be expressed. Our abhyasis have this rare opportunity – to follow a spiritual way that has no major constraint. All they have to do is follow some essential principles and cultivate faith in their Master, together with a love capable of transcending the heaviness of this world with its limitations of all kinds.

May all our abhyasis be truly committed and see only the beauty in everyone and everything.
