Whispers from The Brighter World

Saturday, February 16, 2013 – 10:00 a.m.

You fix upon the centre point of the symbol and you join us in spirit. You internalise this principle; one day it will be understood and utilized more widely by all our aspirants. It takes a lot of time in this world for reality to be perceived in human terms. This objective will take on its true meaning in the future when another level of consciousness is achieved. We cannot force anything; we propose, and everyone can decide as they please. What matters is that all our brothers and sisters are on their way and assimilate as best as possible what we offer them.

In a way such as ours, the psychic centres of the being are refined. They also become stronger through the need to develop within themselves that which is important in an active spiritual process that is responsive to the call of the Divine. We strive to ensure that the aspirations of all are met. A new era is dawning on the horizon of this evolutionary process. In that which concerns us, everything will be done at the right time to meet all spiritual needs.

We do not have a magic key. What we propose is not a dream or unattainable; we propose only what is important for all those who feel concerned about a real approach in this field.

We remain optimistic: in the face of increasing material difficulties, tomorrow's humanity can only grow and open up to the higher reality.

The purpose of these messages is to go further in the method we propose. They provide some elements that can help the abhyasi in understanding phenomena.

May all our brothers and sisters progress and free themselves as much as possible from the miasmas of this material world.

Blessings to all.

Babuji
