Whispers from The Brighter World

Friday, February 22, 2013 – 10:00 a.m.

The way of the heart is the most just and the noblest; it takes us here on this long journey of these special contacts. Are our readers truly aware of what they represent? These writings will remain, in some way, the memory of our Mission. They should be given importance, which the future will knowingly do. So many changes will occur on Earth; they will generate a different state of mind among a very large number of people who will have become truly aware of the fragility of a life. There is no time to lose. May all grasp the truth of these words – such is our goal.

Spiritual advancement is the primary objective; all our action goes in this direction. The future will truly need enlightened beings capable of considering an incarnation as an opportunity given to humans to advance and not to lose themselves in power struggles, as is still the case today, even within human groups where such struggles are not expected. Alas, human beings remain as they are, grappling with their tendencies and flaws. One of the aims of our system is to alleviate them and let the best emerge in beings spiritually committed to a path that is effective in its principles.

Indeed, nothing in this area is easy; one should respect the choices of the Spiritual Master. This is not easy for all; egos manifest and deviate from what is envisioned by the living Master who is inspired by the higher authorities.

*These authorities can see far, very far, in time; hence their decisions in certain circumstances – because they are necessary. Wisdom suggests that they should be respected. Humans are limited to their personal vision which often misleads them.*

*Let us hope that all would have the wisdom to respect the will of the current Master, who is carried in his actions by the higher powers for the good of this entire spiritual Mission that we hold so dear.*

*Blessings to all.*
