Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Thursday, March 21, 2013 – 10:00 a.m.

Your strength, your light, your divine guide is within you, and this power allows you to advance over the course of days on this long journey through which messages are accumulating for the benefit of our Mission. Your Master appreciates this heavenly manna; it inspires him, as it emanates from our united hearts which are fully attentive to him. We carry him in our own manner on this Earthly journey – one that is challenging for him at this current stage in his life. Every day we are by his side, touched by his thoughts and the unfailing call of his heart. We carry him in our hearts and our love helps him every day. A living Master requires constant support and our attention that is full of love towards him, even more so after so many years. He is the highly blessed and beloved son. Carried by this cocoon of heavenly love, he is working wonders and we are fully satisfied by that. His long journey has given our Mission the stature it needs to generate the support that is favourable for future expansion.

The Sahaj Marg edifice is well established in the world of humans, and this will be further consolidated in the future. Living Masters have to hold that role, for which they possess powers whose magnitude cannot be assessed in human terms but which generate highly significant results.

In this, it is the divine will that manifests when a noble goal like this one must be achieved. Our faithful abhyasis have this good fortune. Do they realise the benefit they

are receiving! Human beings have a limited view of such phenomena at this level, but as for their spiritual being, it urges them to act in the right direction when a profound and intense call is felt in them.

Blessed are the beings who are motivated to act towards this noble goal of the elevation of the soul and of the ultimate to be reached here below. Blessings to all our brothers and sisters who are advancing with trust and in surrender to this higher power – manifested as it is in our way by special grace in the person of the incarnate Master.
