Whispers from The Brighter World

Thursday, May 9, 2013 – 10:00 a.m.

Receive in your heart these waves of love generated by the good these messages do in the hearts of all our faithful readers.

This unusual epic will remain an important element in our Mission, which will have a lasting impact on present and future times. Be happy for all this work being done in total surrender and carrying so much subtle energy. May all benefit from it fully and increasingly.

Be carried and blessed by all of us who are united in this praise to the divine Power.

Babuji
