Whispers from The Brighter World

Thursday, September 26, 2013 – 10:00 a.m.

Every day matters, providing an opportunity for humans to open themselves to a knowledge that will determine their future. Following a spiritual way is not an inconsequential choice; it is important in one's life. This choice can change a person's life in a certain way and open the doors to a sacred space where the transformation of the being takes place. Precious time is thereby saved. Life is short in the face of eternity, but it can accomplish that which seemed impossible.

We can see beautiful souls rising, being transformed. In our way, nothing is stunning in appearance, but the work is effective. Steadfast and sincere practice brings about the best results. Everything has its purpose – deeds, a personal practice performed in earnest with faith in our system, and specifically in the power of action of the incarnate Master, lead to a significant transformation. Today's humans want everything to be sensational; such is not our purpose. What is achieved is accomplished in secrecy and lasts beyond time and beyond this world. The elevation of a soul is the most beautiful, the most rewarding aspect here below. This can be observed, and it promotes a general movement that draws other beings – those who are sensitive to this matchless beauty – to engage in this manner. Nothing in this area happens without

reason; the best is yet to come, as they often say in this world. May this beautiful Sahaj Marg Mission reach the highest peaks, carried by a growing fervour.
