Whispers from The Brighter World

Wednesday, October 9, 2013 – 10:00 a.m.

Without this unwavering commitment and determination to act and to serve us, would these thousands of messages have existed? They are a valuable contribution to our Mission, and time will lend them an importance that is difficult to imagine today. The Sahaj Marg Mission has emerged from its divine cocoon at the right time; the higher powers know what they are doing, and humans are there to follow their guidelines, which have been adapted to the modern world and are appropriate for its evolution.

A new era is dawning on the horizon. All this is not very obvious right now, but great changes are being prepared. They will happen slowly, yet with all the power appropriate to such a major development. Humans are not easy to convince; rooted in their habits, in their reference points, they do not envision any major changes. All in good time – when the moment comes, everything will firmly fall into place. Our Sahaj Marg Mission will adapt to these changes and so will our abhyasis, who understand the need for their lives to be organised in a way that is more suited to their evolution. Nothing happens without reason, and everything takes place in a timely fashion. Our way will correspond to the new era and it will fit perfectly within it, as will our many abhyasis worldwide.

Divine logic is infallible, and this is reassuring on many levels. The living Master is charged with facing up to things and adapting to living conditions as they are – and

even more so, as they will be in the future. Spiritual advancement is the best asset for the entire Mission; it will rise to the occasion when needed. To all, the best in everyday life, especially on this spiritual journey which is so very important for each of our brothers and sisters.

May they all be blessed.
