Whispers from The Brighter World

Friday, October 11, 2013 – 10:00 a.m.

We have already come a long way with these messages which are so important for our Mission; time will lend them their rightful place. A spiritual path like ours requires a lot of time to position itself, to ensure that all its aspects are brought to the fore and understood by the greatest number. This method is adapted to current times, and it will become even more explicit in the future when the simplicity of its approach will become obvious to all.

In view of this opportunity for our aspirants to progress, accompanying them on the path of life is not an insignificant matter. Many of them discover over time the importance of this simple but effective practice. Life on Earth is not easy for anyone; a spiritual Master is an example of this – no one is spared. One way or another, divine laws exist, and they manifest in an incarnation according to the goal to be reached by each being inhabiting this planet. Likewise, each planet has its own destiny. This law is inescapable in all aspects of life. Life is one and indivisible in this universe which is subjected to its extremely rigorous laws. Everything is counted and planned in minutest detail, hence this comment, now well known to our abhyasis: "Humans plan their lives and what does God do? He laughs." Making the most of every moment and wasting as little time as possible in futile activities is a sign of great wisdom. Wisdom bears fruit,

you can be sure. Most of our abhyasis are aware of this and working as best they can. We help them as much as possible, with love and understanding.

To all, the best.

Babuji
