Whispers from The Brighter World

Friday, October 18, 2013 – 10:00 a.m.

This long journey of messages has been very productive; we inspire these writings every day. Let us repeat once again: beyond the words, it is our energies that manifest here. How can one not seize such an opportunity! We use everything possible to help our abhyasis. Do they truly realise it? It is not easy to grasp such a concept. Most of them advance with confidence and determination to make real progress. Everything is done to support this. Gatherings also have their importance; may all our brothers and sisters fully realise it.

Each step in the practice has its purpose. Everything should be considered in this spirit: the living Master holds powers which human beings do not perceive, but which truly operate for the good of all. Whether he is physically present or not, his action soars across the continents; in this, divine laws keep all their mystery. Their effectiveness cannot be measured in human terms, and yet what they accomplish is unparalleled in this world of matter where everything ultimately comes down to multiple vibrations, which also escape human perception. We cannot go further into such comments; the time has not yet come for that. Numerous discoveries have been made over the centuries, but so many still remain that would surprise human beings. The time is not ripe. The essential thing for our abhyasis is to progress spiritually – that is the magic key, the one that opens the doors of the sovereign Spirit. These messages, coming precisely from the

world of the spirit, are one of the assets offered in our way. There is no shortage of them, and all is for the best. It is up to each and every one to appreciate this as they see fit.
