Whispers from The Brighter World

Thursday, December 26, 2013 – 10:00 a.m.

Lord Krishna, this very Great Being, has always supported our Mission. Under certain circumstances he manifests himself, touching the heart in a special manner; you know something about this, my dear daughter. This kind of experience is unique; it transforms the being of the fortunate few. It is an infinite grace and it is not forgotten.

It takes a great deal of discernment for a person to make sense of things in this world of endless illusion where sometimes even the most prudent allow themselves to be taken in. Here, in these writings, a reality is expressed, a teaching that benefits the entire Mission by the grace of a wise incarnate Master who has appreciated and disseminated it from the beginning. These writings will continue to have a presence in our Mission, and they will constitute a valuable and important legacy for it. Everything has its raison d'être, and nothing at this spiritual level is done in vain. The hierarchy of Masters is well established and it works to bring about the best; this is not about to change. With this teaching and the unceasing action of the Master, hearts are transformed and opening up to the higher reality. The years have now confirmed results that are well established; benefitting from such a privilege is not commonplace. To have a living Master who has reached such a level of spirituality is an infinite grace. We are pleased to see this Mission grow and that more and more people are enjoying this heavenly manna.

Blessings to all.

Babuji
