# Whispers from The Brighter World

Sunday, January 12, 2014 – 10:00 a.m.

We are not short of arguments, dearest scribe; we can see the positive effects of these contemporary 'Vedas', as these writings are called by this brother abhyasi who has grasped their full significance. Elite souls know where to find the true way, the one that emanates from the Divine and touches hearts that are open and responsive to its splendour. The purpose of these messages is to help ardent souls progress towards the Ultimate. All the ancient writings have sufficiently demonstrated their power and the help they continue to provide today. Each era offers humans an opportunity to grasp what is important for their progress at this level.

Every human being has a history, but enlightened souls meet on these enchanted shores where the voice of the 'angels', as they are called, leads them to bliss. Pure hearts always find their way; they are called when a specific and decisive action is needed for the good of hearts who are also eager to love and to serve in their own manner. Any commitment is important when it contributes to the good and to the elevation of humankind.

Real life has no end; all that is good for humans endures and is indelibly inscribed in time. What emanates from the heart of the Masters has its raison d'être. Blessed are those who are nourished by it and who thus contribute to the spiritual progress of humanity. The entire Mission forms one and the same heart, a heart that is growing; it

*will become a mark of these times and definitively establish itself in this world. This is how it is.*
