Whispers from The Brighter World

Wednesday, February 12, 2014 – 10:00 a.m.

All these testimonies coming from abhyasis near and far – are they not moving for our scribe! After all these years of transmission at this level, the result is very favourable, and this makes us happy. These messages, as we have said many times, are a very precious asset for our Mission. Each and every one can find in them what they need from day to day and, at their convenience, answers are given to them. More and more, these writings will become the strong point of our Mission, in support of the outstanding work of the incarnate Master. Time will demonstrate, more and more, the importance of what is brought forward herein. This Mission is blessed by the chosen ones, and it constitutes a true spiritual richness, so necessary here below in a world that is in a state of collapse in so many respects.

The limits of morality have been far exceeded. Most human beings have lost their bearings – what do the words faith, love and surrender mean for many of them? This is truly a sad state of affairs, and unfortunately we cannot change everything, even with the best intentions in the world and an action that is effective in many respects. All the great civilisations of the past, some of which have disappeared altogether, experienced this irreversible degradation; progress can be devastating if certain limits are exceeded. May our abhyasis be assured: all is well for them in what is essential to their journey

and their spiritual growth. To follow a path such as this is to save precious time. May all be reassured and strengthened on their personal path.
