Whispers from The Brighter World

Sunday, February 23, 2014 – 10:00 a.m.

Be at peace; go beyond disturbances of this kind. They are simply inevitable stages that occur in any human organisation. The essential thing is the goal, the motivation to achieve it and the hope that a spiritual approach can generate when it is closely followed and deeply felt. A commitment of this kind is not trivial. It opens a subtle way capable of producing the best outcomes. Are our abhyasis truly aware of this! In the course of days, they cannot truly see the full reality, but the results are there.

Doors are opening; so many aspects need to be considered in such an approach. Human evolution is taking place overall, and guiding lights are being put in place to gradually change the prevailing vibration. Imperceptible to humans, this vibration produces its effect and promotes this aspiration to the Divine, according to the needs felt by the abhyasi. It is not easy for one and all to identify their real needs, but gradually they feel guided and strengthened in their journey. The subtle being knows where it is going, what it deeply aspires to. Surrender, which is often referred to in our way, is of great importance; human resistance goes against the true aspirations of the soul. How to reconcile material and spiritual life, one might ask. Motivated aspirants find the solution and manage to blossom in their quest for the Divine by harmonising the various aspects of their lives. Nothing is simple, but where would the joy of succeeding lie if such were not the case.

The spiritual Master works unfailingly, and we support him in his difficult task. All is for the best in the service of souls engaged on the luminous and blessed path of victorious love. It is up to each one to follow it ardently.
