Whispers from The Brighter World

Tuesday, June 17, 2014 – 10:00 a.m.

Our abhyasis are progressing – do they realise it? It doesn't seem so in most cases. The main thing is what is accomplished over time, adorning this Sahaj Marg Mission with a beautiful aura. The Mission is asserting itself imperceptibly, yet decisively, and it will leave its mark on this century in the most beautiful manner; this result makes us happy. Here, tomorrow's Mission, in all its magnitude, is already being shaped. We are seeing to it fervently, with all the love possible. We would like to see this love grow in people's hearts and create this energy specific to our way – a way that works on this level in its own very special manner.

This path attracts beautiful souls in need, and we respond to them as best we can by helping them cross the threshold that will finally bring light to their path – today and for a long time to come. The work done in our way is not lost but is found again beyond this world. Many souls have already experienced this; life continues for them far from this world, and their work is carried on favourably under our constant attention. Our abhyasis can rest assured: determined seekers do not stop en route but go where they must under our guidance. The afterlife is not just a pretty picture, but another world also rich in possibilities. Our abhyasis who have joined us here are supported and watched over; such is the case for a number of brothers and sisters who thus continue their journey. This fact is unique and should be emphasised here. Let all be reassured: the

Sahaj Marg way is not a delusion but a great opportunity offered to today's seeker to accomplish the best.
