Whispers from The Brighter World

Friday, July 4, 2014 – 10:00 a.m.

The existence of these thousands of accumulated messages is no ordinary occurrence. Here, channelling capabilities are not enough; much more is required to produce such results. It is by divine grace that our Mission benefits from these messages, and the future will justify these words, you can be sure. Many facts will confirm what is proposed here. Numerous events will occur over time and leave no doubt as to the origin of these messages. Divine power manifests where it wishes; the power of victorious love is great and it achieves what humans cannot imagine. Often it is enough to call for this love with all one's heart for it to grow within oneself in a manner unforeseen. Life hangs by a mere thread, and that thread has numerous resources, the potential of which is inconceivable to humans.

Our 'Taj Mahal', as one might call it, is being built in the Mission in India, the place of choice for this beautiful spiritual path that is developing throughout the world. It will be representative of the power of this love advocated in our way and offering many resources. This place will be highly charged, more than can be imagined today; time will confirm our words, you can be sure. Some places in the world constitute focal points of a sacred energy that is indefinable in human terms but surprising in its effects. Everything is falling into place slowly yet as intended by the higher powers; thus will

this beautiful place affirm an uncommon power that will benefit our entire Mission. This delights us immeasurably.
