Whispers from The Brighter World

Friday, August 8, 2014 – 10:00 a.m.

Love is the most noble food of the soul; it is distilled from day to day and permeates the entire being. What doesn't it make one do? It transforms a life when devoted to the Divine. So many Great Beings have left a mark in this world, in the service of a beautiful and noble cause. Only this love brings about effects that withstand time. Not everyone is in the light, and yet their lives behind the scenes can be dedicated to a noble action. Good and evil exist side by side on this Earth; this is how it is and it is not about to change.

Working towards human evolution is the current challenge; the journey will be long, but one day it will result in what has been long awaited and hoped for. Our path aims for this goal: the good of human beings in the noblest sense, based on a pre-planned and constant evolution. A spiritual path produces many unknown benefits, and yet real progress is achieved, even if it is unidentifiable. Is that not the most important consideration! Seeing a being transformed from within and the soul rising little by little is the most beautiful of rewards. Everything is slow here below; this cycle will last for a long time yet. In this as well as in other aspects of life, complexity will manifest itself, and for good reason. Doesn't everything have its raison d'être! All this is to lead our

brothers and sisters to interiorize themselves even more and to progress with ardour towards an ultimate goal.
