Whispers from The Brighter World

Sunday, August 24, 2014 – 3:30 p.m.

The behaviour and criticism regarding these messages – some of which provide graphic instructions about the future of this spiritual way – are quite regrettable. Who can take such liberties? We only want to submit information to our dearest son Parthasarathi in a simple manner, so that he can pass it on to the entire Mission in order to inform each of our brothers and sisters. A bit of respect for the entire hierarchy of Masters would be welcome; whatever is done or decided in our way at the highest level should be considered important. Our vision of things is not that of human beings; in our way, it manifests on topics that are sensitive and extremely valuable for the future of this path. Who can know what the world will be in the future and which laws will then prevail here below?

Each of our abhyasis has quite enough to do with regard to themselves, without incessantly questioning the information given here for the sake of all who are committed to this spiritual path – one that is not subject to certain unfortunate egos in their endless manifestations within the Mission.

We do not give this current message happily, but it would be time for everyone to focus within themselves on what is essential and to let us guide and enlighten our

dearest and great son as is proper – for this Mission that is so dear to us, and for the good of all. Blessed are the pure in heart, for they shall see the light. May all be blessed.
