Revered Babuji Maharaj

Whispers from The Brighter World

Tuesday, September 16, 2014 – 10:00 a.m.

We say it again, this journey of messages has been long and quite rich for our Mission. It will leave its mark over time. Why not repeat it in this manner? Human beings need this kind of reference point to spur their faith and build themselves upon it, carried by the love of the chosen Master. All these aspects are to be considered in a spiritual process; everyone acts according to their heart and personal aspirations, and most often to their tendencies and social background.

The soul knows where it is going and what has to be; it is good to follow this inclination when it manifests itself eloquently. Human complexity has no equal; nothing is ever simple here below. We have to act in this direction and go beyond current trends. Most important is to advance in the direction of human evolution. It is taking shape very slowly at the current pace, which will accelerate in the future in a more decisive manner.

We see here the progress made with these messages; they leave their vibrations in hearts capable of making them bear fruit. This way of Sahaj Marg will not be forgotten; whatever upheavals are to come, its impact will not cease touching hearts, more and more receptive in the future to the very special vibration of these messages! Doesn't everything have its raison d'être. The divine purposes are of an absolute precision, often little understood by humans, yet of an absolute precision and effectiveness when needed. Everything has its raison d'être; it is up to each one to understand it and to

seize opportunities that present themselves to some – opportunities to move more quickly towards the ultimate goal, under our constant blessings.
