Whispers from The Brighter World

Wednesday, September 17, 2014 – 10:00 a.m.

Let's get past this disappointment. So many messages are known to our brothers and sisters, and they help them every day. All, according to their respective personal aspirations, find here something to satisfy them.

Yes, many upheavals will occur on this Earth – why not talk about it? Our abhyasis are adults, sufficiently enlightened to allow us to address some subjects that concern them, when necessary. We will come back to this later. Changes are also in the making in other spiritual paths that have long since left their mark in the world. Humanity is at a pivotal point in its evolution. Since the dawn of time, the history of the world has known multiple transformations, some of which have been large in scale.

Nothing is immutable, ever. Matter in its smallest particles is constantly evolving; such is the law of life, in all its intensity, far exceeding human comprehension. In many fields, human beings have reached quite a remarkable level of knowledge, yet there is still much more for them to discover. Everything is done very slowly here below, at a pace desired by the higher powers whose laws are not known to humans. The most 'learned' are limited to the knowledge currently possible. Soon a big step will be taken, but that is not to say it will be tomorrow. May all our brothers and sisters focus on their

own lives and their personal evolution, thus perfecting, through this current approach, what already exists. To all, the best.
