Whispers from The Brighter World

Tuesday, September 23, 2014 – 10:00 a.m.

A wave of love sweeps over you and carries you far away, to enchanted shores where it is good to refresh oneself and forget the worries, even the sufferings in some cases, that are inevitable here below.

We cover this world with love, with good energies able to help our brothers and sisters on this journey, which – to a greater or lesser extent – is not easy for anyone. We would like to accelerate the process of transformation that helps humans win over another space of life – an easier one. Here, patience is required. Going in the direction of one's personal elevation is a decisive act; understanding its necessity is a strength, a divine gift of which no possible aspect should be neglected regarding regular and productive practice. The notion of sovereign love is important; cultivating it within oneself is critical to this process. This love does not get lost and is recovered from life to life as a precious and divine legacy.

May all our brothers and sisters realise the importance of their commitment – it is not commonplace, differing from many activities that draw in human beings every day in their Earthly journey. The writings and speeches of the Masters help our brothers and sisters in this special process. These messages are a daily nourishment, so wished by the hierarchy of the Masters for the good of all our aspirants. According to a personal call, each one receives in that measure – the strength of this way increases, and so do its benefits.

To all, the best, from our united hearts.

Babuji
