Whispers from The Brighter World

Sunday, December 28, 2014 – 5:00 p.m.

A new life begins here, without altering in any way the special relationship that binds me to each one of you. The Sahaj Marg Mission forms a whole, a special energy, strong and constructive; it is good to regain this power of action, diminished by an end of life on Earth quite difficult to bear. It had to be that way – it is not easy as humans to understand the necessity of living through such trials. Everyone leads their life as they can, and in this there is great diversity, yet it all leads back to the same goal, to what is essential in every incarnation: the elevation of the soul towards its highest destiny.

My journey on Earth was long, but serving this Mission by the grace of the higher powers is the noblest reward there is. My Divine Great Master, Babuji Maharaj, has always been at my side, manifesting in a very personal manner, yet with so much love and respect for others. His greatness cannot be described, so special is it, as the most revered Lalaji told him: his apparent simplicity concealed his true personality beyond all human description.

To be among all these beings is an indescribable happiness that by no means precludes staying attentive to loved ones, and to the whole Mission, its multitude forever united in our hearts in view of the best that can possibly be given. Being reborn in this world is an amazing grace, there are no words to describe such a joy. To be free from physical suffering is a great step forward; all our attention here is focused on this

entire Mission, so close to our hearts. May all be reassured and happy to know that their Master Parthasarathi is in the best possible conditions, surrounded by so much love emanating from our revered Masters and from loved ones re-joined here, to everyone's greatest delight. All blessings from Parthasarathi, one who was and will always be attentive to you, dearest ones.

Parthasarathi
