Whispers from The Brighter World

Sunday, January 11, 2015 – 10:00 a.m.

Mediums are not lacking in the Mission, whatever capabilities they may claim to have. In this case, these messages will remain unique among their kind, unlike incidental writings that are meant to satisfy, in some people, undesirable egos. Vigilance will be essential in the future; this heavenly manna constitutes a real benefit for our Mission – a reference that will leave its mark on time, as desired by the alliance of Masters, very attentive to the Mission's attributes. Through these lines, we all express ourselves for the benefit and unceasing support of our abhyasis, for the best of their spiritual elevation.

May all be reassured, the Mission is moving forward. In spite of some inevitable turbulence, its strength will defy time – carried, as it will be, by all of us here, including the great Parthasarathi who, being among us, has regained the full extent of his capacities.

All is for the best. Our dear Kamlesh will give the utmost to this path blessed by the gods. He will be endowed with a very special power of action. Doesn't everything have its raison d'être.

To all, the best, under our constant and special blessings during this period of transition.
