Whispers from The Brighter World

Friday, January 23, 2015 – 10:00 a.m.

For human beings, life keeps all its mystery. Whatever they may think about it, many facets escape them; they see only one of its aspects. It cannot be otherwise in the current era in which materialism prevails over everything in an alarming way. Changes must take place to lead human beings to a more accurate view of phenomena. Upheavals will occur, furthering the transformation of humanity, by divine grace; the best will come, according to the laws of evolution. Humanity still has a big step to make before this world becomes one of harmony and spiritual realisation for a large majority of people. We are working in this direction.

An aspiration for the Divine is manifesting in people's hearts; many are waiting for something different – a real approach that can help them reach the goal, the one that enchants the soul beyond all expression. Here lies the mystery, the ideal to be attained. We are working towards this, you can be sure, and thus the divine purpose will be achieved.
