Whispers from The Brighter World

Sunday, February 1, 2015 – 10:00 a.m.

All these beautiful testimonies from fervent abhyasis regarding the messages are touching; you receive them with joy, and we are happy about it. These writings are not given in vain, you can be sure. They are a precious asset for our Mission, and their effects will be measured over time. The association of Masters who have represented the Mission here below creates a force acting for the good of this extraordinary way of the heart. Each one receives according to his or her call; we cannot force anything, only respond to an expectation, to a need allowing for the spiritual growth that is possible in the current state of affairs.

Many ardent hearts are turning towards us. They are in need, and we respond to them in our manner. Nothing is in vain; everything is counted and represents the achievement of each one. An incarnation has multiple aspects – none of them is ignored – and it shapes the true personality of our brothers and sisters involved in this vast mystical momentum that will defy time. Only time will allow for an assessment of what this path truly represents at this stage in human evolution. The subtlety of this method is not yet really understood, but that will come.

We wish everyone a genuine commitment, along with the corresponding results. Confident we are in the future of this Mission; so many good people are committed to serving it, and they receive accordingly. Everything has its raison d'être, nothing is in vain, you can be sure of it.

The best to all, from the united Masters.

Babuji
