Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Thursday, February 5, 2015 – 10:00 a.m.

Life changes, the world evolves and the Mission is growing; all this requires a new way of viewing things in its organisational structure, and at every level. We are letting our dear Kamlesh settle into his role as Master in order to bring about some necessary changes. An adjustment will need to be made in several areas. The time that has elapsed has brought into view the changes needed for the good of all. We are seeing to it; new rules will have to be set forth. We will return to this – everything in its time.

Our beloved and great Parthasarathi is henceforth watching over this Mission that is so dear to him. Like all of us here, he will support his successor – the one who is vested with a power of action appropriate to his mission in this new status of his. We did not choose him in vain; he has all the necessary resources, and these will prove their real efficacy when the time comes for acting as needed. At this level, nothing is done in vain. The growing number of abhyasis will require new arrangements. We will come back to this, suggesting a few aspects to be modified.

May our abhyasis be assured, everything will be done for their good and that of the Mission. We will inspire the Master who is in place, to guide him in the necessary restructuring in certain areas, especially in the practice. May all rest assured – all that is

envisioned will be implemented to promote the advancement of our brothers and sisters. Very special blessings.

Babuji
