Whispers from The Brighter World

Sunday, February 8, 2015 – 10:00 a.m.

One can never repeat too often; you know that repetition is necessary for certain truths to prevail in minds. Humans forget quickly, far too quickly, when it comes to important facts. This hectic world is struggling to find its bearings; essential truths are neglected by the majority. We can only lament it for the sake of this distressed humanity. Errors are committed that cannot be repaired, even though they endanger the universal balance. To work in our own manner for the good of each of our brothers and sisters invested in this quest for the Divine – this is what we can do best to contribute to human evolution. What is good for human beings cannot but prevail and change the mindset of these troubled times.

Our dear Kamlesh has the skills required to successfully lead this Sahaj Marg Mission in all its scope. Learning to manage efficiently is not new for him, and he will live up to our expectations. Doesn't everything have its raison d'être! Many changes will occur to restructure what already exists, giving it even more weight and span. It is said that there is strength in unity, and this aspect is essential in a path like ours where reference to the incarnate Master is to be respected above all else. To be personally committed, with faith and determination, leads to a certain transformation of which

most of our abhyasis are not fully aware, though it exists . There lies the purpose of this work.

Blessings to all.

Babuji
