Whispers from The Brighter World

Sunday, February 22, 2015 – 10:00 a.m.

Time will give these messages their full importance: they will become the hallmark of Sahaj Marg, as wanted by the Masters and supported by the higher authorities. They will constitute a valuable asset for this spiritual path. Big changes will come, and though unimaginable today, they will occur and return humanity to more wisdom and respect for all of creation; it is high time to consider this aspect of things. Spectacular reactions will occur – they will come to restore order to this mad world that totally neglects the reality of divine power in its diverse aspects. Human beings must stay within the limits of what is currently possible; when the time for a complete mutation comes, things will happen at the required pace, respecting an order necessary for the good of all creation.

May our abhyasis understand the need to focus themselves on what is essential. Only spirituality will allow emergence from the chaos provoked by upheavals that are important and necessary to worldwide equilibrium. May our brothers and sisters rest assured, when these times come, they will keep their personal gains, decisive for their onward journey.

Sahaj Marg, as it is today, is as intended. Its benefits will extend on Earth to bring human beings the guidance necessary for their spiritual blossoming. One day, after much turmoil, this world will return to wisdom. It is far from it today, as its effects are

becoming worrisome for the multitude. May our abhyasis move towards the goal with determination – we will help them.

Blessings.
