Whispers from The Brighter World

Friday, March 6, 2015 – 10:00 a.m.

Nothing is easy in this world, or elsewhere for that matter. A certain level of consciousness must be reached in order for reality, as it is referred to in our Mission, to become clear. The truth differs completely from what is imagined on Earth, but this cannot be otherwise. A big step is still to be made to explore life for what it really is. Such is the purpose of our teaching; we do not promise paradise, nor do we talk about a place that is evil. Our work here is geared towards the understanding of phenomena and each person's ability to progress towards the Divine. The proposed practice makes it possible to refine the centres involved in this extraordinary journey. The incarnate spiritual Master brings a special touch to this work; it is not easy to understand this process – one that is beyond human perception.

In the future, all the elements will be in place at the spiritual level so that the action of Sahaj Marg as produced today will be perpetuated, far in time. Centre points at various places on the planet will radiate through a few chosen beings. The power of this action is growing; it is hardly perceptible to humans, but this special vibration yields significant results, far beyond the Mission. Here we can assess its value, and it is heartening, you can be sure. There is still much to do. The number of abhyasis is growing, giving a glimpse of the power of this Mission in the future, as planned for the benefit of our members and, by extension, of what surrounds them. May all abhyasis be more and more committed for their own good and that of the entire Mission.

Blessings.

Babuji
