Whispers from The Brighter World

Thursday, March 19, 2015 – 9:30 a.m.

The heart determines all of life and holds secrets of which the human being has no idea. Everything is decided in this sacred place, since it is there that destiny imprints its law, as decreed by the Divine. Our action is applied to this, operating on specific points that are still generally disregarded. This action promotes spiritual growth. So many mysteries remain. Human beings, are they ready to truly progress, so deeply rooted are they in this present life of heightened materialism. Beautiful souls are advancing; they know how to take advantage of what is offered to them in the field of knowledge. Many of our abhyasis would like to go further into it, but certain limits are imposed; assiduous practice and definite commitment foster a satisfactory spiritual progress.

Each one progresses at his or her own pace, although in some cases it may be possible to speed up the process a little. Our way attracts beings who thirst for the Divine. They yearn for a significant advancement, which usually occurs. Although simple in appearance, this method produces good results when it is appropriately received. We are gradually advancing on this path, where knowledge is broadening as it can be received in this present stage of human evolution. It is up to each one to focus on what is essential and to open his or her heart to our unceasing action. Only the abhyasi's call determines the intensity in our action. To all, we wish the most favourable advancement possible.

Special blessings.

Babuji
