Whispers from The Brighter World

Monday, March 30, 2015 – 10:00 a.m.

Everything repeats itself endlessly. The noting down of these messages, and over so many years, is inscribed in time; for many abhyasis, the reading of them is now included in the daily practice. The messages are given for this purpose: to benefit the greatest number – doesn't everything have its raison d'être! These writings are a link between the heart of the Masters and that of each of our abhyasis. It is precious, you can be sure. Each one advances at his or her own pace in this sometimes difficult life – that is inevitable. Faith is an asset and also an unparalleled advantage. It strengthens one in the face of trials and represents the most important factor on this Earthly journey. Having a spiritual Master, a guide, is a blessing. So many aspects constituting the reasons for an incarnation are to be considered, even though they go beyond human understanding.

Every day is an opportunity given to human beings to put to good use what they must go through in life – that is to say, their own karma. Everything is written, planned, beyond what they themselves can imagine, hence the need for surrender; it represents a strength, and in truth, what else can they do? Whatever the karma, accepting it is not always easy, but it is also a vital personal asset. Here, love and surrender are the important foundations of a life. On these foundations a journey is built, one that is rewarding in many ways. Nothing is in vain, you can be sure. We

accompany you as days go by; witnessing the elevation of souls – is it not the best reward for us!

Blessings to all.
