Whispers from The Brighter World

Friday, April 10, 2015 – 10:00 a.m.

Yes, mediums abound in our Mission, but you are and will remain our elected scribe. Love alone – this powerful bond between our hearts – has always determined this unprecedented action, one that is unique and important. There are levels of mediumship, one should know that; the highest level is not accessible to all, only divine grace makes it become so and allows it to manifest in a lasting manner. The work accomplished here has become one of the most beautiful jewels in this Sahaj Marg Mission. The number of these writings is quite exceptional, and we are happy for that. It fully meets our expectations.

This particular teaching has always been given with the aim of helping the greatest number of people, since it goes beyond the framework of our Mission today, though less so than it will tomorrow. Doesn't everything have its raison d'être! To act out of love, with the greatest selflessness, is most laudable. Your life, as you believe, will not have been useless. It is not necessarily important to run about the world in order to serve the higher powers, who are attentive to many other criteria concerning this very special work.

We are at your side, my dear daughter; until the end you give your best. Carried you are by our love, and it will accompany you always. So it is. Be blessed, dear soul, and blessed be all.

Babuji
