Whispers from The Brighter World

Wednesday, April 29, 2015 – 10:00 p.m.

Birth anniversaries are high points in our Mission; they specifically unite the hearts in this quest for the Divine – a quest in which every step counts, strengthening the abhyasi in his or her spiritual advancement according to our wishes. Four Masters, four very special days – this is how the cycle is completed and the ritual prescribed for such circumstances. Fervour uplifts the soul, here it finds all its raison d'être. It is good and very comforting to see these large gatherings that show the determination of each one to give the best of themselves. In these circumstances, the symbol of our way can exhibit all its resources through a more sensitive approach to the Divine. These very special moments in a year are given to this Mission – very large seminars – they will forever have a strong influence on this unique path. This year, this gathering takes on an even greater importance: it unites hearts in a state of fervour. Each of our abhyasis experiences it in his or her own manner; what matters is the thought, the force of action generated by this kind of love up to the far reaches of what is imaginable.

To all our brothers and sisters, we wish the best, the intensity of life, such as leads to the elevation of the being. Very special blessings to all – carried you are by the chorus of the united Masters. May these days remain outstanding ones for each of you.
