Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Saturday, May 16, 2015 – 10:00 a.m.

This seminar is very beneficial for its participants, but not only for them; its action leaves an imprint on the locations where it takes place and benefits other people who are sufficiently receptive to its very special energy. In the current era, humanity is searching for its true identity, its potential on the spiritual level; important work remains to be done to raise the level of consciousness. Everything is slow here below, as the laws cannot be circumvented. Even so, a real process is currently going on and the Mission benefits from it; it is forging ahead. All of us here support our dear Kamlesh in his efforts to promote the expansion of this path so special and suitable for the new era. The expansion of Sahaj Marg should be based on unity and trust in the Master who is vested with our powers. Nothing is done without this unbreakable bond, this unity capable of weaving the sacred fabric wherein the divine will is expressed.

Our abhyasis have found their way. Many are really becoming aware of this and are investing themselves fully. For them, this incarnation is an opportunity, a blessing from which they benefit now but which also opens doors onto the future. May they all reassess their commitment and do their best to fully involve themselves in this unprecedented journey; they will not regret it. These messages are intended to help our

brothers and sisters; it is up to them to ensure that they make the most of this, supported by our ceaseless action.
