Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, May 17, 2015 – 10:00 a.m.

We help you daily; we support you in this struggle where love carries you against all odds. There lies your strength, your best ally, and we can see the results of it in these numerous messages. They are a precious asset for our Mission. All of them are handled and preserved for the good of all; thus will the future also be nourished by them. Doesn't everything have its raison d'être! The world's history exists through visible signs erected by human beings, but throughout time, writings have constituted a very precious asset. This is to be considered, and what is done in this direction is very wise. What will this future be? It is suitable to prepare it as well as possible, preciously preserving all that constitutes the references of this spiritual way. These writings of the Masters are a part of it, a true wealth dedicated to all our brothers and sisters.

This grand edifice, currently under construction in Hyderabad – it too will be the reference of Sahaj Marg. Our energies are already focusing there, thus making it the blessed sanctuary of our path. May all efforts move in this direction for the completion of this sacred temple. Our dear Kamlesh is currently seeing to it. We have total confidence in him that the best will be generated here as well. His action is already proving to be positive, and this is just the beginning. To him, to all, strength and

courage to go towards the essential, towards the goal – in all things, under our special blessings.

Babuji
