Whispers from The Brighter World

Saturday, May 30, 2015 – 10:00 a.m.

Every Master has his own personality. Each of them so far has contributed, in due course, what was needed for the Mission. This Mission is expanding in the world and growing in power – that of the sovereign Spirit that carries souls to where they need to be and strengthens hearts that are open and confident in its action. Thus the ardent wish of the united Masters is fulfilled, fostering the development of a spiritual movement – one that is unprecedented in its action on beings who seek extraordinary progress.

Our dear Kamlesh – the Master chosen and fully active – is aware of the extent of the work that lies ahead. All in good time; everything will be done as appropriate, with the help of those who watch over not only his destiny but also that of the entire Mission. Nothing will be simple but is wanted thus by the power that surpasses human understanding, to enable the realisation of that which must be. There is still much to do, to be conceived, in order to put into place all that is necessary for the development and extension of this way of the heart, so important for the future of humanity, which is suffering as never before; so-called progress does not necessarily bring happiness or peace to the soul, as it should. This is how it is. We cannot go faster and exceed the divine plans. Nonetheless, the best is being achieved; that is real and verifiable for us.

Very special blessings to all.
