Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Friday, June 5, 2015 – 10:00 a.m.

The story of the messages is beautiful; beyond these written pages, much love supports it on both sides. At this level, it cannot be otherwise – only an energy as special as this can yield such results. These thousands of messages will remain in the memory of our Mission, and they will constitute a substantial contribution. The movement of life generates numerous changes. As for our way, it too will evolve and know how to adapt to circumstances; its spirit will defy time. The Masters of the past have brought it to what it is, and the current Master will give it an unprecedented importance, according to divine plans, to ensure its permanence in the world. The different countries in which our spiritual way is advancing will recognise it in its present spirit, and they will respect the principle of it. All will know how to adapt and conform to the rules and decisions of the incarnate Master, when, over time, the need for a change will be felt for the good of all.

Great things will come to be in this Mission: the construction of spaces and places to meet the growing needs of its rapid expansion. Ashrams are very important; charged accordingly, they are representative of a spiritual way whose action on the human level is unprecedented. What defines it does not expose itself to the understanding of all. The only thing that counts on the part of our abhyasis is their eagerness to involve themselves in the journey of heart and mind, reunited to achieve the best of this extraordinary quest.

May grace pour into hearts and strengthen them in their endeavour and their ability to integrate extraordinary principles. It is up to one and all to conquer this sacred space under our blessings.
