Whispers from The Brighter World

Monday, June 15, 2015 – 10:00 a.m.

This beautiful testimony about the importance of the messages for our abhyasis can only help you during this difficult time. The messages are not given in vain. This ritual is sacred, you can be sure; the future will justify these remarks. Such writings are a true asset for our Mission and will remain a testimony, a teaching that will defy time. This is the way it is, dear scribe. History will remember what is important, and that is reassuring. The new era will preserve what is necessary for human evolution, and it must be structured from this perspective. It must evolve favourably in the knowledge of a reality that still escapes the majority of men and women, who ignore the principle of reincarnation for the wrong reasons. This reality is quite reassuring; nothing is lost. Everything is feasible in terms of what is good and the opportunities granted to human beings to progress and discover within themselves that which is the very principle of life – namely, the divine and creative energy, capable of accomplishing wonders.

Following a spiritual way that opens the mind to knowledge is a very precious advantage in a life. Each life allows for advancement, for the elevation of the soul until it attains 'reality'. We do not claim to provide everything, only to sufficiently light the path and foster the advancement of our abhyasis. Since its inception in this world, our way has helped so many hearts – it is gratifying to underline it here. To all of you, we

wish perseverance and faith in achieving the goal. It is worth the effort, you can be sure.

Endless blessings to all the hearts open to our action.

Babuji
