Whispers from The Brighter World

Thursday, June 18, 2015 – 10:00 a.m.

Let your heart sing; to love like this is a divine gift. That which emanates from it is bound to touch our hearts. Why wouldn't we mention what animates this process of message taking. These messages carry a particular vibration, and this gives them their special essence. Many of our brothers and sisters feel their unique quality and are nourished daily by their beneficial effects. What is given to the Mission is precious. This asset will defy time; what is good endures and overcomes the barriers of materiality. The Mission of Sahaj Marg has more than one asset – the succession of Masters so far is exemplary and constitutes a sound basis for its presence in the world for a long time to come; its teachings will be appreciated over time and kept for good reasons.

After many upheavals, human beings will increasingly feel the need to progress on a spiritual path that is accessible and non-constraining. Sincerity and commitment provide a decisive balance in this uncommon work. All of the subtlety of this method is not yet fully recognised; no matter – it exists and is making its way into people's hearts by providing help daily to our brothers and sisters in need of it. Beyond the words and vibration, both merge and operate effectively, generating good results, you can be sure. It is up to each one to act accordingly and to benefit until the end from this unusual

event – the noting down of thousands of messages, special in their essence. Our scribe was not chosen in vain
