Whispers from The Brighter World

Friday, July 24, 2015 – 10:00 a.m.

Dear brothers and sisters, much love rises up to us on these special days when we ourselves are particularly attentive to this Mission and to each of our brothers and sisters. A strong transmission takes place which benefits all abhyasis. These moments are unique, of this you can be sure. Happy are those who devote some time and reflection to these rare days of the year. They thus reap benefits whose scope they cannot imagine. Sahaj Marg is not an ordinary path – a real spiritual work is carried out for the good of all. This constitutes an achievement of rare significance. The work of all benefits each one, and vice versa. Herein, unity is important; the power of the incarnate spiritual Master represents certain powers of which he himself has no idea. He is the sensitive vector of this force which is granted to us here. This spiritual path is so very blessed; most of our abhyasis are not really aware of this. A day will come when all will realize it fully. Everything in its time – the Sahaj Marg path is relatively new in this world, yet its action provides real benefits, you can be sure. Where better than here can one truly realize its importance.

To all, we wish the best and that which is most heartening on this special day when our love for all is equally special.
