Whispers from The Brighter World

Friday, July 31, 2015 – 10:00 a.m.

Life follows its course, to each their own destiny. When it unfolds within the framework of a spiritual path, valuable time is saved. Nobody is perfect, even within a movement like ours. The cleaning as proposed in Sahaj Marg helps considerably in the long term, and at all levels. This fact is not insignificant; sittings and cleanings are not trivial assets. Here, all aspects are to be considered. The commitment of the heart depends on human circumstances in all their diversity. We can evaluate the results obtained; the method offered to today's human being is remarkable in its effects. Such is the current assessment, which should be considered in order to extend the benefits farther than they reach today.

We are looking at this aspect of things; human beings are progressing and slowly but irreversibly opening up to the power of the Spirit, which in the future will manage to prevail for the welfare of one and all. Sahaj Marg will know how to adapt. The current Master is not short of resources; he will face up to things brilliantly and will be increasingly inspired to perfect what already exists, by making adjustments to certain assets. A day will come when this way will astonish people with its possibilities, visible to open minds and becoming immensely effective. This whole assessment is rather heartening – why not share it with our brothers and sisters. Those who are most fervent in their practice already feel it. At the dawn of a new era, the best can be hoped for in

this sense; we are working towards it. May all be carried and convinced by this unique action for the elevation of each one, under our ceaseless blessings.
