Whispers from The Brighter World

Tuesday, August 4, 2015 – 10:00 a.m.

Let us continue for some more time, will you, to accompany our dear Kamlesh, chosen by our hearts to assist this Mission in achieving its desired level. As the days go by, everything falls into place on the material level. Nothing is ever easy; humans often complicate situations that should be simple. What is to be will be. The current situation sufficiently demonstrates this. Our choices are made for valid reasons. The major decisions result from a consensus among the Masters of Sahaj Marg and the Great Initiates sensitive to this exceptional path. It will go far in its progress, you can be sure. What is good for the seekers becomes obvious to them quite naturally. We do not force anything; that is not our way of doing things. Only a call from the heart determines the commitment of the abhyasi.

When the soul opens to the splendour of the sovereign Spirit, the 'angels' – as these noble souls are so rightly called here below – help humanity in its distress. They too work for the best. There is much to be done in this world; let us work tirelessly towards elevating the spiritual level of today's distressed humanity. Sahaj Marg helps in its own way, which is not negligible, you can be sure. Through their practice, so many beautiful souls bathe in this vibration whose effects are unique. Sahaj Marg has not been given in vain to today's human beings, who have reached a pivotal point in their evolution on Earth. A very special space is opening up before them, in which our purpose is

to lead them to the goal – one that does not disappoint, and whose achievement is fundamentally desired by all. So it is.
