Whispers from The Brighter World

Friday, August 14, 2015 – 10:00 a.m.

The number of messages given here by the alliance of Sahaj Marg Masters is unprecedented in history; why not emphasise it once again. This fact is significant. It demonstrates the importance of Sahaj Marg, the place it already occupies in this world, and the place it will have in the future when humans advance more and more on a path of this kind. This world is not destined to stagnate in violence and the incomprehension of paranormal phenomena. Gradually, these phenomena will be revealed in their reality and in the essential part they play in the process of life. This process is supported by the reincarnation of beings through the long journey of souls for their evolution. Here, we cannot delve more deeply into these laws. One day maybe this will become possible, but it is not so today.

Let us proceed step by step in what is offered to us right now, when spiritual progress is decisive for all. Following the path that we propose here, in its utmost simplicity, surely provides beautiful prospects for evolution to achieve the best – that which we wish for one and all. Here, as elsewhere, nothing is easy, ever; in each of the created worlds there are laws that must be followed for the good of all. Does a world that is perfect in every way exist? We cannot say, and such is not our purpose. For all to advance towards the best is already an important step to prepare them for what is to come. We do not make grand promises as was done in the past. We are content with what is real – the advancement of all our abhyasis, wherein all must achieve the best.

We see to it in our own manner; this requires a true commitment from everyone. So it is, under our blessings.
