Whispers from The Brighter World

Tuesday, August 25, 2015 – 10:00 a.m.

Time will give considerable importance to this Sahaj Marg Mission. The Mission will bring a lot to beings in search of a true spiritual system, without great outward demonstrations but very active in terms of its effects. Moreover, this way is not forgotten by the previous Masters; they have for this Mission a very special attention, which is not common. Wanting the best is one thing; achieving it is a rare blessing. Do our dear abhyasis realise the importance of their endeavour? The banality of this material world hides reality from them. No matter. They are committed, they are advancing at their own pace, and nothing gets lost, you can be sure. In addition to the practice, there are enough arguments to convince them of the correctness of this approach.

To all, we wish peace and love on this path where nothing can get lost and everything has meaning, especially in this way of the heart. Blessings to all.

Babuji
