Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Tuesday, September 8, 2015 – 10:00 a.m.

Every day is a step forward in this unprecedented mystical advancement whose action focuses on the essential. The loyalty of the beings who serve this Mission is important. Everything depends on the spiritual work of the incarnate Masters and those who preceded them – thanks to whom solid foundations were established and are making this Mission what it is today. The future will give it its full scope and a power that is difficult to assess today. The human being of the future will have an even greater need for a simple, easily accessible method in order to connect to reality – a reality from which humans are moving further and further away, so absorbed are they in a technology that devastates their subtle bodies. This fact is alarming and not perceived by the medicine of today, which is largely focused on the physical body. Sahaj Marg helps our abhyasis without their knowing, one might say. May the practice act more and more upon a large number and thus fulfil our dearest wishes.
