Whispers from The Brighter World

Thursday, September 24, 2015 – 10:00 a.m.

Everything has been said, it seems, and yet many abhyasis are still calling to us and being nourished by these lines. This ritual has its raison d'être, you can be sure. Beyond these lines, it connects many sincere and ardent hearts in this uncommon process. Time will give it an importance you cannot imagine today. Thus is history written. Sahaj Marg is not as simple as it seems. In its own manner, it holds a power of action intended by the higher authorities – those who work in this domain for the benefit of beings eager for a real progress towards the ultimate goal. Repetition is needed in everything, that is worth remembering; the spirit feeds on what is suitable for it and assimilates it in its own manner.

All human beings have this potential, but too many of them neglect it, caught as they are in the pervading negativity of this world and the passing of days. Nevertheless, our action continues. A time will come when it will be obvious to all, since it will be perceptible by the majority, as it is framed in a planned and necessary evolution for humankind. Slowly and in his or her own manner, each one is advancing towards the goal. Regarding this way of the heart, the results are very satisfactory – why not say it and repeat it. This is how it is. May the entire Mission grow stronger and advance to

the next level, under our ceaseless action and that of the incarnate Master, whose power is being exercised as suits us for the general good.
