Whispers from The Brighter World

Tuesday, October 27, 2015 – 10:00 a.m.

Our dear and great son Kamlesh has entered into his role as spiritual Master of the Sahaj Marg Mission brilliantly. It is not easy to adapt to such a function; it requires many qualities and the inner strength to face up to such a challenge. The Mission is expanding and it requires greater attention at all levels. It is appropriate here to adapt the approach to current times and allow a wider action in all parts of the world to keep it very close to the Source and the spiritual Master who embodies it. We act in our own manner so that all remain united in the original spirit of this way of the heart, remarkable for its effective work on both the material and spiritual planes. The two are not separate; they are as one, united by a very special vibration that is undetectable to most of our abhyasis, but very active, you can be sure. The brothers and sisters who join us are well able to assess the action of this approach; they have benefited from it, which allows them to save valuable time in this new life that awaits them. 'All is nothing, God is everything,' it has been said; these words are evidenced in their real action which is, in a sense, astonishing. Following such an approach saves valuable time and allows one to cheerfully overcome the barriers of materiality. Another space opens up to the seeker, a space that is unlimited and full of resources of every kind.

Blessings and support to all in advancing ever further on this very special path – one that is so active in spite of its apparent simplicity.

Babuji
