Whispers from The Brighter World

Friday, January 1, 2016 – 10:00 a.m.

These messages will leave an uncommon imprint on hearts that is far more important than it appears. The current Master, well prepared by our watchful care and blessed with extraordinary potential, will give the Mission its final foundation.

He will implement what will be decisive for the future of this unparalleled path. Here the heart is of fundamental importance; this aspect of things is not yet fully understood in all its subtlety. What is spiritual is not as clearly defined as would be desirable in these current times, when so much effort is required to open this space to the multitude of hearts that are willing to follow a real path and thus to move beyond this world that is distressed in many respects. This is dismaying to us, but in this era we are limited as to a convincing action for the vast majority. A day will come when the need for real action at this level will become obvious to all. The future will lead to a stage of evolution hardly conceivable today. How many people care about this aspect of their lives? A general awareness will be necessary to achieve the desired objective. The divine plans are always fulfilled – this has been evident since the dawn of time. How much effort, how many incessant struggles are necessary to reach the goal. Achieving it

is the ideal, the total happiness as it is imagined by humans. Our action works in this direction. That is how it is.
