Whispers from The Brighter World

Tuesday, February 16, 2016 – 10:00 a.m.

Life is created by the movement of materiality, which is inspired by the higher power whose manifestation is eternal. So many phenomena still elude human knowledge. This world of perpetual illusion does not foster spectacular advancement. A day will come, after major upheavals, when reality finally unfolds before the eyes of human beings. They will be astounded to discover it as it is.

Then, Sahaj Marg will take on great importance. It will really display its effectiveness at subtle levels which human beings cannot yet access, contrary to what the best-informed people believe.

Life on Earth is a long quest for truth, a truth which has been sought after for so long. Spirituality, as we offer it, opens doors, thus enlightening the seeker to some extent and according to his or her deep yearning to discover it. Humankind has so much to do in order to reach a satisfactory level. It has already come a long way, but a great step is yet to be made before human beings can gain access to reality. The practice of Sahaj Marg provides seekers with highly satisfactory aspects in this matter. Though they do not truly realise it, this world of illusions so distorts the initial truth that it remains, in the current state, ignored by humans. Substantial changes will occur one day. They will allow barriers to be removed, making true knowledge more accessible to human beings.

Make of that what you will, these words are very accessible to our abhyasis, may they take note of them.

Blessings to all.

Babuji
